Ankit Sharma

Una, Himachal Pradesh

EDUCATION

ABVGIET, Pragatinagar

2020 - 2024

B. Tech - Computer Science and Engineering - CGPA - 8.09

Shimla, Himachal Pradesh

COURSEWORK / SKILLS

• DSA

- Oops Concepts
- Software Engineering

- Operating System
- Computer Network
- DBMS

EXPERIENCE

Intern at Antino Labs

July 2024 - January 2025

Role - Software Developer

Gurugram, Haryana

<u>IndiGo Paints Admin Panel</u> Reactjs, SASS, Redux, API Integration, Libraries

2024

- Spearheaded API integration for the IndiGo Paints project, enhancing its functionality and connectivity.
- Developed reusable components utilized across the entire project, optimizing development efficiency and ensuring design consistency.
- Implemented Role-Based Login across the application.
- Contributed to the adoption of agile methodologies, utilizing Jira and Confluence, improving team productivity through iterative development cycles.

SolutionEc NextJs, CSS, RTK Query, Framer Motion, API Integration

2024

- Developed SolutionEC, a portfolio website using Next.js 14 with folder-based routing, slug-based dynamic routes, and server-side rendering (SSR) for performance optimization.
- Integrated RTK Query for efficient API data fetching and Framer Motion for interactive animations, increasing user interaction by 30%.
- Optimized SEO, improving search engine rankings and boosting organic traffic by 50%.
- Collaborated with a team using Git, GitHub, and Jira for version control, project management, and issue tracking.

PERSONAL PROJECTS

Thrive Cart 🗷 | MERN

2024

- * Built an ecommerce application clone for users to buy products using the MERN Stack.
- * Leveraged Razorpay for payments and engineered a secure authentication system using JWT tokens.
- * Integrated multiple APIs to create separate functionalities for admin and user accounts.

Blog Application ☑ | MERN

2023

- * Developed a blog application in which users can post blogs using MERN.
- * Implemented private routes to protect against unauthorized access.
- * User can also create category for his blog content after authentication.

TECHNICAL SKILLS

Languages: Java, Javascript

Technologies/Frameworks: HTML5, CSS3, TailwindCss, Reactjs, Redux, ReduxToolkit, TypeScript, Nodejs, Expressjs,Sql, MongoDB

Developer Tools: VS Code, IntelliJ, Github, Git, Thunder Client, PostMan

CERTIFICATIONS

• Earned Alpha DSA with Java, Apna College

EXTRACURRICULAR

- Led the College Competitive Programming Club as Head Coordinator.
- Secured 3rd position in College Coding Hackathon in 2023.
